

The 10-Point Self-Audit

How visible is your business, really? Tick what's true today — be honest, nobody's watching.

- ☐ **01 Google finds you**
Search "[your service] + [your area]" — your business appears on page 1.
- ☐ **02 Google Business Profile is claimed**
Verified, correct phone and hours, 10+ real photos, posts in the last month.
- ☐ **03 Reviews work for you**
10+ reviews, 4.0 or higher, and every single one has a response from you.
- ☐ **04 Your details match everywhere**
Same name, address, and phone on your site, Google, Instagram, and directories.
- ☐ **05 Your site loads fast on a phone**
Under 3 seconds on mobile data (not Wi-Fi). Test it on your own phone right now.
- ☐ **06 WhatsApp or call is one tap away**
A visitor on mobile can reach you without hunting, typing, or copying a number.
- ☐ **07 A stranger understands you in 5 seconds**
Your homepage says what you do, where, and for whom — without scrolling.
- ☐ **08 You look like a real business**
Real photos (not stock), named people, RC number, and a physical address.
- ☐ **09 Your contact form actually works**
You tested it this month, and enquiries get a reply within one business day.
- ☐ **10 Your socials look alive**
At least one post in the last 30 days. An abandoned page reads as a closed business.

Count your ticks:

8–10: solid — protect it and keep going. 5–7: you're leaking enquiries every week.
0–4: you're invisible online — customers are choosing competitors they CAN find.
